When a Great Scientist Such as
Sir William Crookes Speaks

All the world is expectant. Of all Sir William Crookes' wonderful discoveries none has brought him greater fame or more lasting gratitude the world over than his new spectacle and eyeglass lenses. These lenses can be ground by us to your prescription from a glass which actually retards or absorbs the harmful rays from light, so that the eyes are at all times protected.

Are you interested in keeping your eyesight? It can be done the scientific way with the right kind of lenses.

NO PRESSURE TO OFFER FORWARDS AT LOWER PRICE

Temporary Recession Late in
February Due to Cubas for
Immediate Taking

Nevers & Callaghan, 99 Wall street,
offer the following Sugar Market Re-
view under date of February 25:

"The extensive purchases made by
refiners last week, added to their sup-
plies previously contracted for, ap-
parently provided them with ample
stocks of raws to cover their com-
mitments for refined, and as the export
and domestic demand for granulated
had abated, refiners, at the opening
of the week, showed a reluctance to
contract for any further quantity of
raws. In consequence, the market dis-
played an easier undertone, and offer-
ings of Cubas at 4-1-6c for February
and March shipments and 4-1-6c basis
96 deg. c.&f. for April shipment failed
to find buyers.

Holders gradually modified their
views and while about 100,000 bags
Cubas for April shipment at 4-1-6c
basis 96 deg. c.&f., and 5000 bags for
March shipment at 4c basis 96 deg.
c.&f. were taken during the week,
principally by speculators, this buying
did not take care of all the offerings
in these positions at these prices and
neglected some few scattered parcels
in nearby positions that were un-
successfully offered as low as 3-15-16c
basis 96 deg. c.&f. Although a refiner
paid 4-8-9c basis 96 deg. c. 1. f., for
some 20,000 to 30,000 bags Porto Ricos
for prompt shipment early in the
week, yet this price was only obtain-
able at the end of the week for Porto
Ricos in the more forward positions,
and at the close, there remain some
20,000 to 30,000 bags Porto Ricos for
late February and early March clear-
ance for which 4-8-9c cannot be real-
ized.

"The more pronounced weakness ap-
parent on nearby Cubas and Porto
Ricos as compared with sugars in
later positions, is due to an accumu-
lation of unsold parcels of nearby sugars
in the face of very heavy arrivals of
sugar in this port within the past sev-
eral days, and the liberal exports from
Cuba during the past week to U. S.,
which would predicate continued large
arrivals here for the next few days.
During the week, one small cargo of
Cubas that arrived here unsold was
ordered into store rather than accept
3-1-2c basis 96 deg. c.&f., which was
the best price obtainable at that time,
and two large cargoes belonging to
refiners were also ordered into store
because of the lack of room at the re-
fineries for handling same.

"The week closes with refiners still
practically withdrawn from the mar-
ket, especially for nearby sugars, but
with speculators showing some inter-
est in the moderate offerings of Cu-
bas at 4c for prompt and 4-1-6c basis
96 deg. c.&f. for March and April
shipment. There is no pressure to
sell forward positions, however, and
comparatively small quantities are
being offered from Cuba.

"The weekly cable on Tuesday from
Cuba reported receipts of 138,715 tons
and 79,000 tons receipts and 172
centrals at work at the corresponding
date last year. Today, 180 centrals
are in operation and the weather is
dry.

"The advance in granulated to 6.25c
less 2 per cent for domestic purposes
and to 5.30c f.o.b., in bond for refined
for export, now quoted by all refiners,
tended to check business for the
finished product. While withdrawals
by the domestic trade have been fairly
liberal, new business has been ex-
tremely light. A limited export in-
quiry has been in evidence during the
week but actual orders placed have
not been large in the aggregate owing
to the fact that the prices being asked
were above buyers' ideas.

"The trading in options reached an
aggregate of 21,200 tons during the
week. Closing quotations for the most
active months are: March 4.09c@
4.11c, April 4.14c@4.16c, May 4.19c@
4.20c, July 4.28c@4.29c, and September
4.38c@4.40c."

HONOLULU ASTONISHED BY SIMPLE MIXTURE

Honolulu people are astonished at
the INSTANT action of simple buck-
thorn bark, glycerine, etc., as mixed
in Adler's-ka. ONE SPOONFUL re-
moves such surprising foul matter it
relieves almost ANY CASE constipa-
tion, sour stomach or gas. Because
Adler's-ka acts on BOTH lower and
upper bowel, a few doses often relieve
or prevent appendicitis. A short treat-
ment helps chronic stomach trouble.

AYLETT'S DEATH MAY COST CITY BIG LUMP SUM

Second Fatality Since Work-
men's Compensation Be-
came Effective

With the death on last Monday of
John K. Aylett, an employee of the
city and county garbage department
fatally injured while at work, the mu-
nicipality may be required, under the
employer's liability act, to pay com-
pensation to his widow and children.

Aylett's three children were adopt-
ed, but this makes no difference as
the law recognizes an adopted child
just as fully as it does a natural one.
According to the law three or more
dependent children, and a widow, are
entitled to 60 per cent of the em-
ployee's average weekly wages for six
years, or approximately \$3000 in Ay-
lett's case, his daily wages being \$2.50.
Compensation periods for a widow
extend for six years, or until death or
remarriage, while for a child they are
to last to the age of 16 years, but in
case of a child incapable of self-
support and unmarried, as long as
incapable, but in no case to exceed 101
weeks beyond the age of 16.

Funeral expenses not to exceed \$100
can be collected from the employer.
Dependency is defined for children
as being under 16 years of age, or in-
capable of self-support and unmar-
ried, whether actually dependent upon
the deceased or not.

In case of a widow dependency con-
sists in having lived with the deceased
or actually dependent, wholly or par-
tially, upon him.

Aylett's death is the second one
among city employees since the li-
ability act went into effect. The first
was that of Sam Fui, who died a few
days ago as the result of being hit
with a rock during blasting operations
at Hakipuu quarry.

THE NEWEST REMEDY FOR BACKACHE, RHEU- MATISM AND DROPSY

Kidney, Bladder and Uric Acid
troubles bring misery to many. When
the kidneys are weak or diseased,
these natural filters do not cleanse
the blood sufficiently, and the poi-
sons are carried to all parts of the
body. There follow depression, aches
and pains, heaviness, drowsiness, ir-
ritability, headaches, chilliness and
rheumatism. In some people there are
sharp pains in the back and loins, dis-
tressing bladder disorders and some-
times obstinate dropsy. The uric acid
sometimes forms into gravel or kid-
ney stones. When the uric acid affects
the muscles and joints, it causes lum-
bago, rheumatism, gout or sciatica.
This is the time to try "An-uric."

During digestion uric acid is ab-
sorbed into the system from meat,
fish, and even from some vegetables.
The poor kidneys get tired and back-
ache begins. This is a good time to
take "An-uric," the new discovery of
Dr. Pierce for Kidney trouble and
Backache. Neglected kidney trouble
is responsible for many deaths, and
Insurance Company examining doctors
always test the water of applicant be-
fore a policy will be issued. Have
you ever set aside a bottle of water
for twenty-four hours? A heavy sedi-
ment or settling sometimes indicates
kidney trouble. The true nature and
character of diseases, especially those
of the kidneys and urinary organs,
can often be determined by a care-
ful chemical analysis and microscop-
ical examination—this is done by ex-
pert chemists of the Medical Staff of
the Invalids' Hotel. If you wish to
know your condition send a sample
of your water to Doctor Pierce's In-
valids' Hotel, Buffalo, N. Y., and de-
scribe your symptoms. It will be ex-
amined without any expense to you
and Doctor Pierce or his Staff of As-
sisting Physicians will inform you
truthfully.—Adv.

A despatch to the Morning Post
from Bern says "German agents, es-
pecially women, are buying large
quantities of wool in Switzerland."

STOP DANDRUFF! HAIR GETS THICK, WAVY, BEAUTIFUL

Girls! Draw a Cloth Through
Your Hair and Double
Its Beauty

Spend 25 Cents! Dandruff
Vanishes and Hair Stops
Coming Out

To be possessed of a head of heavy,
beautiful hair; soft, lustrous, fluffy,
wavy and free from dandruff is merely
a matter of using a little Danderine.
It is easy and inexpensive to have
nice, soft hair and lots of it. Just get
a 25-cent bottle of Knowlton's Dan-
derine now—all drug stores recom-
mend it—apply a little as directed
and within ten minutes there will be
an appearance of abundance, fresh-
ness, fluffiness and an incomparable
gloss and lustre, and try as you will
you can not find a trace of dandruff
or falling hair; but your real surprise
will be after about two weeks' use,
when you will see new hair—fine and
downy at first—yes—but really new
hair—sprouting out all over your
scalp—Danderine is, we believe, the only
sure hair grower, destroyer of
dandruff and cure for itchy scalp and
it never fails to stop falling hair at
once.

If you want to prove how pretty and
soft your hair really is, moisten a
cloth with a little Danderine and care-
fully draw it through your hair—tak-
ing one small strand at a time. Your
hair will be soft, glossy and beautiful
in just a few moments—a delightful
surprise awaits everyone who tries
this.—Adv.

LEATHER SO COSTLY IN AUSTRIA NOW THAT MANY GO BAREFOOTED

[By Associated Press]
VIENNA, Austria.—Shoe leather
has become so scarce in Austria that
the shoemakers demand \$2 for soles
and old pair of shoes. Hundreds of
children are unable to go to school
because they have no shoes, which
cost anywhere from \$2 to \$5 a pair.
Shoes with wooden soles have been
introduced from Germany, but even
these cost from \$1.20 to \$2 a pair.

Harold Craft, 18 years old, of Bos-
ton, was indicted for murder in con-
nection with the death of his cousin,
Eileen T. Kern, 2 years old, who had
been left in his care during the
mother's absence.
